ASN3 "FAMILY INTERVIEW (ID) NUMBER" NUM(5.0)

Family Interview (ID) Number

This variable contains values for the family interview number for each wave of Asian Ethnicity data. ASN2 (Year of Interview) must be used as a subset selector, since family interview number values are not unique across waves. If the data are first subset using ASN2, then the values here are unique within the selected wave and link the Asian Ethnicity data with that wave's single year family-level data.

For example if one wanted to merge records with with the 2019 Family File, first subset ASN2=2019 then ASN3 corresponds to ER72002 the 2019 Family Interview (ID) number.
