IPEDS3 "FAMILY INTERVIEW (ID) NUMBER" NUM(5.0)

Family Interview (ID) Number

This variable contains values for the family interview number for each wave of IPEDS data.

IPEDS2 (Year of Interview) must be used as a subset selector, since family interview number values are not unique across waves. If the data are first subset using IPEDS2, then the values here are unique within the selected wave and link the IPEDS data with that wave's single year family-level data.
