ICMJ3 "INTERVIEW (ID) NUMBER" NUM(5.0)
Interview Number (ID Number)

This variable contains values for the individual interview number for each wave of College Major Detailed data. ICMJ2 (Year of Interview) must be used as a subset selector, since individual interview number values are not unique across waves. If the data are first subset using ICMJ2, then by using a combination of ICMJ3 (Interview Number) and ICMJ4 (Sequence Number) the values here are unique within the selected wave and link the College Major detail data with that wave's individual-level data.

For example, if one wanted to merge records with the 2019 Individual File, first subset ICMJ2=2019 then merge to the Individual file using ICMJ3 and ICMJ4 where ICMJ3 corresponds to ER34701 the 2019 Individual Interview (ID) number and ICMJ4 corresponds to the 2019 Sequence number (ER34702).
