VEH0 "INTERVIEW YEAR" NUM(4.0)
 Interview Year

In order to merge vehicle information with the main PSID files, the user must select records from a given year and then merge those records with the appropriate Family File for that year. For example for the year 2017, users would subset vehicles where VEH0=2017 then merge these cases with the 2017 Family File where VEH1=ER66002
